

SAFETY & ACCESSIBILITY GUIDE

INTRODUCTION:

We are thrilled you have chosen to spend your day at Six Flags Hurricane Harbor! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Hurricane Harbor Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Hurricane Harbor. While there are inherent risks to participating in any water park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many water park rides are designed by the manufacturer to accommodate people of average physical stature and body proportion. Ride and ride vehicle design may restrict larger guests from participating in the attraction. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices, or with certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features and rider requirements of each ride are described later in this Guide.

In order to ride, Guests must possess the physical and cognitive abilities to hold themselves in the proper rider position throughout the course of the ride. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and/or written rider requirements.

Hurricane Harbor reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a responsibility to read the Safety Information sign posted at the beginning of each ride in order to understand the rider requirements and restrictions for each ride. Guests should disqualify themselves from riding if they do not meet the rider requirements. All Guests also have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):

Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. The catch pools and run-outs at the bottom of most of the slides are accessible to Guests using manual wheelchairs. ECV's must be operated in a safe manner, only one person may be on the ECV while moving, must have 3 wheels and cannot exceed 5 miles per hour while moving in the park or on Hurricane Harbor's property.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways.

SERVICE ANIMALS:

Trained service animals are welcome at our Six Flags Parks.

Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Owners are responsible for disposing of their animal's waste. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides, attractions and pools are not equipped, or designed for, accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride. Service animals are not allowed in the pools.

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

RIDE AND ATTRACTION ACCESS:

Most of the park's attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require climbing of steps and the transfer to the ride vehicle.

Entry, Exit, and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Hurricane Harbor Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. If in doubt, please contact the Ride Attendant or Guest Relations for more information.

PERSONAL CARE ATTENDANT:

The Personal Care Attendant (PCA) program is designed to accommodate guests with disabilities who are in need of support services such as personal hygiene, eating, toileting, transferring, safe movement, maintaining continence and/or medication management, in order to participate in the Park's goods, services and attractions. The PCA's attendance is required to enable the guest to participate in the Park's goods, services and attractions. The PCA is not a guest and shall not participate in any of the Park's good, services or attractions separate and apart from their client. The PCA receives compensation for the PCA's services, and the PCA is professionally licensed as a home health aide. If the Park discovers that the guest or the PCA has misrepresented the purpose of the PCA or that the PCA has acted as a patron of the Park as opposed to a PCA, the PCA and the guest will be expelled from the Park and may be barred from future entry.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These may keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information. Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides are designed by the manufacturer to accommodate people of average physical stature and body proportion. The design of the ride may place restrictions on the ability of an individual to safely experience

the ride. Many rides will have single or multiple rider weight limitations. Guests of a larger size may not be accommodated on some rides.

RIDE RATINGS AND WARNINGS:

RIDE RATINGS AND WARNINGS:

Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Maps.

Key to Symbols:

GENERAL INFORMATION

FAMILY SERVICES/NURSING MOTHERS:

An area for nursing mothers is available at our First Aid station. Baby changing areas can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

HEARING DISABILITIES: Written Safety Information signs are posted at the beginning and at the top of each ride.

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

Hurricane Harbor does not allow outside food or beverages to be brought into the park. The park's restaurants offer a variety of food options. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to a Park Map or ask any Team Member for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride. Guests are encouraged to leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium. Photography is limited to family members only and all care should be given to not photograph other Guests enjoying the park.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation may be escorted last in order to expedite the ride evacuation process.

Atlantic Panic

A single rider body slide that has sudden turns, drops, splashes, and a run-out that decelerates riders in 6 inches of water. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 42" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the course of the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the run-out is accessible from the main walkway.

Black Hole

An enclosed, double or single rider tube slide that has sudden turns, drops, splashes, and a run-out that decelerates riders in 6 inches of water. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 42" tall to ride. Total combined weight of double riders not to exceed 400 pounds. Maximum weight limit for any rider is 250 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to grasp the handles of the tube tightly and to maintain their balance while sitting and holding themselves in a feet first position throughout the ride. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the run-out is at the top of a flight of stairs.

Blue Raider

A double or single rider tube slide with quick acceleration, steep drops, splashes, and a catch pool finish that decelerates riders in a 4 ½ foot deep pool. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 36" tall to ride. Total combined weight of double riders not to exceed 400 pounds. Maximum weight limit for any rider is 250 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to grasp the handles of the tube tightly and to maintain their balance while sitting and holding themselves in a feet first position throughout the ride. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Caribbean Chaos

A single rider body slide that has sudden turns, drops, splashes, and a run-out that decelerates riders in 6 inches of water. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 42" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the course of the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. There is access to the edge of the run-out from the main walkway.

Der Stuka

A single rider body slide with quick acceleration, a steep drop, high speed, zero gravity effects, and a catch pool finish that rapidly decelerates riders in a 5 ½ foot deep pool. Guests will experience high speeds, steep drops, zero gravity effects, and rapid deceleration forces.

Height/Weight Restriction: You must be at least 48" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a prone, feet first position with their legs crossed at the ankles and their hands clasped behind their neck throughout the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Dive Bomber

A single rider body slide with an enclosed launch capsule with quick acceleration, a steep, sudden drop, high speed, zero gravity effects, and a catch pool finish that rapidly decelerates riders in a 5 ½ foot deep pool. Guests will experience high speeds, steep drops, zero gravity effects, and rapid deceleration forces.

Height/Weight Restriction: You must be at least 48" tall to ride. Maximum rider weight is 300 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a prone, feet first position with their legs crossed at the ankles and their hands clasped behind their neck throughout the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Geronimo

A single rider body slide with quick acceleration, a steep drop, high speed, zero gravity effects, and a catch pool finish that rapidly decelerates riders in a 5 ½ foot deep pool. Guests will experience high speeds, steep drops, zero gravity effects, and rapid deceleration forces.

Height/Weight Restriction: You must be at least 48" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a prone, feet first position with their legs crossed at the ankles and their hands clasped behind their neck throughout the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Hook's Lagoon Crossing

A challenging activity over a 3 ½ foot deep pool. Guests try to cross the pool while holding onto a rope lattice while walking on floating pads.

Height/Weight Restriction: You must be under 52" tall to participate, but must be tall enough to comfortably reach the rope lattice.

Physical Requirements: Guests must possess two full arms and at least one full leg. Weak swimmers are encouraged to wear a life jacket.

Ride Access: The edge of the catch pool is accessible from the main walkway inside Hook's Lagoon.

Hook's Lagoon Pirate Ship

A small kiddie pool for wading with water elements and a kiddie slide with a water depth of 12 inches.

Height/Weight Restriction: You must be less than 52" tall to participate unless accompanying a child. You must be less than 42" tall to ride the slide.

Physical Requirements: On the slide, riders must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride. Weak swimmers are encouraged to wear a life jacket.

Ride Access: The edge of the pool is accessible from the main walkway inside Hook's Lagoon. There is a zero depth entry into the pool. The slide is at the top of a set of steps.

Hook's Lagoon Pool

A family pool for swimming and wading with water elements and a depth of 3 ½ feet.

Height/Weight Restriction: You must be less than 52" tall to participate unless accompanying a child.

Physical Requirements: None. Weak swimmers are encouraged to wear a life jacket.

Ride Access: Access to this attraction is available from the main walkway inside Hook's Lagoon. A sloped ramp entry with handrails is located on the south-east side of the pool.

Hook's Lagoon Treehouse

A children's aquatic attraction with various play elements and with water depths ranging from 0 inches to 3 ½ feet. Play elements include water splash and sprays, water blasters, and net climbs.

Height/Weight Restriction: You must be less than 52" tall to participate unless accompanying a child. You must be between 42" and 52" to ride the slides.

Physical Requirements: On the slides, riders must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There are four entrances into the area. The primary entrance into the area is accessible from the main walkway. The other three entrances are accessible from the main walkway via a set of steps. Access to the treehouse aquatic attraction is up a set of steps and across a variety of rope climbs.

Hydra Maniac

A set of single rider enclosed body slides with quick acceleration, steep drops and sudden turns, and a 6 foot drop through the air into a 12 foot deep pool. Guests will experience high speeds, multi-directional forces, and a 6 foot drop through the air into the water.

Height/Weight Restriction: You must be at least 42" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride. This ride is recommended for **strong swimmers only**.

Ride Access: There is one entrance to this attraction which is up a spiral stairway. The edge of the catch pool is accessible from the main walkway.

Lazy River

A simulated flowing river where riders float in tubes, swim, or wade along its course. Guests will experience currents and may encounter waves and splashing. The pool depth is up to 3 ½ feet with periodic changes in floor level.

Height/Weight Restriction: There are no height or weight restrictions.

Physical Requirements: There are no physical requirements. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There are six entrances to this attraction that involve descending a set of steps. There is a sloped ramp entry with handrails near the front gate bridge. Wheel chairs are not allowed into the Lazy River.

Mega Wedgie

A single or double rider raft slide with quick acceleration, steep drops, splashes and a 6 inch deep catch pool finish that decelerates riders. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 42" tall to ride. Total combined weight of riders not to exceed 600 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a seated position by holding onto the handles of the tube throughout the course of the ride and to keep their chins tucked into their chests.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. Guest access to the run-out area is restricted. Guests can access the exit to the ride from the main walkway.

Raging Rapids

A single rider tube ride alternating between a series of gentle pools and rapid descents ending in a 4 ½ foot deep catch pool that decelerates riders. Guests will experience sudden drops and spinning forces.

Height/Weight Restriction: You must be at least 36" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in an upright-seated position by holding onto the handles of the tube throughout the course of the ride. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Sea Wolf

A multi-rider raft slide with quick acceleration, steep drops, splashes, and a catch pool finish that decelerates riders in a 3 ½ foot deep pool. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 36” tall to ride. Children less than 48” must be accompanied by an adult. 2 or 3 riders only with the total combined weight of the riders not to exceed 600 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to grasp the handles of the raft tightly and to maintain their balance while sitting and holding themselves in a feet first position throughout the ride. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Shotgun Falls

A set of single rider body slides with quick acceleration and a 6 foot drop through the air into a 12 foot deep pool. Guests will experience moderate speeds and a 6 foot drop through the air into the water.

Height/Weight Restriction: You must be at least 42” tall to ride. Maximum rider weight is 250 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride. This ride is recommended for **strong swimmers only**.

Ride Access: There is one entrance to this attraction through a queue line and up a flight of stairs. The edge of the catch pool is accessible from the main walkway.

Small Surf

A single rider board ride with quick acceleration, extremely turbulent water, and a run-out finish that decelerates riders. Guests will experience a simulated wave with turbulent water, variable and high water speeds, and multi-directional forces.

Height/Weight Restriction: You must be at least 48" tall to ride.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a prone or kneeling position on the board.

Ride Access: There is one entrance to this attraction up a set of steps and through a queue line. The edge of the run-out is accessible via a set of steps.

Splashwater Beach

A children's aquatic attraction with various play elements and with zero water depth. Play elements include water splash and sprays, water blasters, and dump buckets.

Height/Weight Restriction: There are no height or weight restrictions.

Physical Requirements: There are no physical requirements.

Ride Access: There are multiple entries into the area. A sloped ramp entry with handrails is located on the south-east side of the area.

Suntan Lagoon

A family pool for swimming and wading with a waterfall feature and with a water depth of 18 inches.

Height/Weight Restriction: There are no height or weight restrictions.

Physical Requirements: There are no physical requirements. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There are multiple entries into the pool. A sloped ramp entry with handrails is located on the north side of the pool.

Surf Lagoon (Wavepool)

An ocean-like swimming pool with simulated waves and currents that can be strong. Pool depth ranges from a zero depth to 8 feet deep.

Height/Weight Restriction: There are no height or weight restrictions.

Physical Requirements: There are no physical requirements. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There is a sloped ramp entry with handrails at the north side of the pool.

Tornado

A multi-rider raft slide with quick acceleration, steep drops, splashes, and a catch pool finish that decelerates riders in a 3 ½ foot deep pool. Guests will experience steep drops, variable and high speeds, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 48" tall to ride. 2 - 4 riders only with the total combined weight of the riders not to exceed 700 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in an upright-seated position by holding onto the handles of the vehicle throughout the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the catch pool is accessible from the main walkway.

Tsunami Surge

A double rider tube slide that has sudden turns, drops, splashes, and a run-out that decelerates riders in 36 inches of water. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 48" tall to ride. Total combined weight of riders not to exceed 400 pounds. Maximum weight limit for any rider is 250 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to grasp the handles of the tube tightly and to maintain their balance while sitting and holding themselves in a feet first position throughout the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the run-out is accessible from the main walkway.

Typhoon Twister

A single rider tube slide that has sudden turns, drops, splashes, and a run-out that decelerates riders in 36 inches of water. Guests will experience high speeds, steep drops, zero gravity effects, spinning and multi-directional forces.

Height/Weight Restriction: You must be at least 48" tall to ride. Maximum rider weight is 250 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to grasp the handles of the tube tightly and to maintain their balance while sitting and holding themselves in a feet first position throughout the ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the run-out is accessible from the main walkway.

Wahoo Racer

An enclosed, single rider mat ride with quick acceleration, sudden turns, steep drops, splashes, and a run-out that decelerates riders in 6 inches of water. Guests will experience high speeds, steep drops, zero gravity effects, and multi-directional forces.

Height/Weight Restriction: You must be at least 42" tall to ride. Maximum rider weight is 300 pounds.

Physical Requirements: Guests must possess the physical and cognitive abilities to lie on the mat, head forward, stomach down, with the feet elevated, and to be able to grasp the handles firmly. Weak swimmers are encouraged to wear a life jacket.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. The edge of the run-out is accessible from the main walkway.
