SAFETY & ACCESSIBILITY GUIDE

FOR MORE INFORMATION PLEASE VISIT GUEST RELATIONS

INTRODUCTION:

We are thrilled you have chosen to spend your day at La Ronde! Our goal is to make your visit fun and memorable. This La Ronde Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Régie du Bâtiment du Québec. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any La Ronde Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to La Ronde. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on

the size needed for safety restraints to function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

La Ronde reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS

Wheelchairs are available for rent at the Rental Center located next to the lockers at the main entrance and at a boutique Le Marchand du Village at the Village entrance. A deposit is also required.

Guests may also use their own wheelchairs. If you need to take the rented wheelchair outside of the park, please go back to the Rental Center for assistance.

Guests using wheelchairs may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Few rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer wheelchairs as an alternate form of transportation. Please contact Guest Relations for more information.

SERVICE ANIMALS:

Trained service animals are welcome at La Ronde and the other Six Flags theme parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

A Service Animal "Relief Areas" are located in the grassy areas behind the Pizza Pizza near the Main entrance. Owners are responsible for disposing of their animal's waste. Please look for this designated sign:

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

ALTERNATE ACCESS:

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service

animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant or Guest Relations for more information.

EQUAL ACCESS PASS PROGRAM:

Our goal is to safely accommodate the needs of all Guests including individuals with disabilities by providing equal access to rides and attractions.

Handicapped person” means “ A person with a deficiency causing a significant and persistent disability, who is liable to encounter barriers in performing everyday activities.”

A disability may affect a person’s movement, intellectual skills, speech or language, vision, thinking, hearing or skills associated with other senses. It may be related to organic functions, or linked to an autism spectrum disorder or severe mental health disorder. Note that this definition allows the inclusion of persons with significant episodic or cyclic disabilities

Temporary impairments that are significant enough to substantially limit a major life activity that may qualify for coverage under the Equal Access Pass Program. Please visit The Rides Guest Relations to obtain an Equal Access Pass.

The Equal Access Pass Program is designed to provide an avenue for those individuals with disabilities whose disability prevents them from waiting in the queue lines to fully enjoy their experience at the Park. Specifically, the Equal Access Pass provides qualified individuals with the ability to schedule a time to return to the ride/attraction (i.e., a reservation time) that is comparable to the current queue line wait time for a given ride/attraction.

An Equal Access Pass is provided for the Guest requiring the accommodation and up to a maximum of 3 companions. Upon presentation of a valid Equal Access Pass, the Ride Attendant will document your reservation time for the ride. You may rest in a comfortable location or enjoy other attractions in the area until your reservation time has come or when the others from your party reach the boarding platform. If your party is larger than 4 Guests, the other members of your party will be required to enter the ride through the standard queue. There is only a 15 minute grace period for late arrivals.

The Guest with an Equal Access Pass must ride in order for his/her companions to utilize the Equal Access Pass Program. If the Guest with an Equal Access Pass chooses not to ride, his/her companions must wait in the standard queue.

Equal Access Passes are not designed to bypass or “skip” the standard queue and the wait will be equal to the posted wait times. Individuals found to be fraudulently using the Equal Access Pass may be subject to civil penalties.

If your disability does not restrict your ability to wait in the queue lines, an Equal Access Pass may not be appropriate. If you require an alternative accommodation, please let us know.

SIX FLAGS SAFETY AND ACCESSIBILITY NOTICE

Our goal is to safely accommodate the needs of all Guests, including individuals with disabilities by providing equal access to rides and attractions.

Equal Access Pass are intended to accommodate Guests with mobility aides, service animals and legitimate disabilities which require alternative access to a ride. They are not designed to bypass or “skip” the lines and the wait will be equal to the posted wait times. Individuals found to be fraudulently using the Equal Access Pass may be subject to civil penalties.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches,

canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

RIDE RATINGS AND WARNINGS:

RIDE RATINGS AND WARNINGS:
Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

Key to Symbols:

GENERAL INFORMATION

FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

FAMILY SERVICES/NURSING MOTHERS:

A private room for nursing mothers is available upon request. Baby changing areas and a companion restroom can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are

pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation process may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

Definitions: Every ride entrance lists height requirements and special instructions regarding the ride. La Ronde uses the following terms:

Responsible Person: A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54" tall or taller.

Accompanied By:

Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation.

Lap Child: A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

Functioning Extremity:

A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the section on Prosthetics in this Guide.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the ride.

Functioning Arm is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip. Functioning leg is a leg with a foot.

SYMBOLS:

This symbol is used to identify rides accessible to guests in wheelchair or with reduced mobility. Guests must be accompanied by a person capable of helping them transfer in the ride unit seat.

This symbol identifies rides that can accommodate guests who are able to transfer from their wheelchair to the ride unit without assistance, and are able if necessary to climb steps or walk on the inclined ramp to reach a seat.

MILD THRILL RIDES:

Galopant

Merry-go-round with fixed chariots.

Height Restriction: Less than 36 inches (91.4cm, fixed seat or horse). Guests between 36 and 44 inches (91.4cm and 111.8cm) must be accompanied.

Physical Requirements: Each rider must be able to remain sitting up straight, keeping their head upright. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices, one (1) naturally fully formed and functioning leg absent of prosthetic devices, and one (1) leg to the knee to utilize a horse. Riders utilizing a bench must have upper body control and be able to sit in an upright position.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Lap children are permitted to ride on the bench.

Guest must be able to step up into ride unit.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a Team Member.

Grand Carrousel

Merry-go-round with fixed chariots

Height Restriction: Less than 36 inches (91.4cm, fixed seat or horse). Guests between 36 and 44 inches (91.4cm and 111.8cm) must be accompanied.

Physical Requirements Each rider must be able to remain sitting up straight, keeping their head upright. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices, one (1) naturally fully formed and functioning leg absent of prosthetic devices, and one (1) leg to the knee to utilize a horse. Riders utilizing a bench must have upper body control and be able to sit in an upright position.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Lap children are permitted to ride on the bench.

Guest must be able to step up into ride unit.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a Team Member.

Grande Roue

Ferris wheel

Height Restriction: Riders must be at least 52" tall to ride alone. Riders under 52" must ride with an adult.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Must have full body control with the ability to support themselves. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Single Riders are not permitted.

Lap children are not permitted.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a Team Member.

Minirail

Elevated train that circles La Ronde

Height Restriction: Guests measuring less than 52 inches (132.1cm) must be accompanied.

Physical Requirements: Each rider must maintain their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must be able to sit properly, use all restraining devices, and stabilizing themselves. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a wheelchair must proceed up the special access ramp for Minirail Fort and entrance ramp for Minirail Village and present a valid Equal Access Pass to a Team Member.

Spirale

Panoramic ride that allows admiring La Ronde's site, Montreal and surroundings at a height of 240-feet.

Height Restriction: Guests measuring less than 48 inches (121.9cm) must be accompanied.

Physical Requirements: None

Ride Access: Guests using a wheelchair should enter through the exit ramp and present a valid Equal Access Pass to a Team Member.

Maison Rouge

An intense, haunted attraction which uses automation, illusion, stobe lights, shocks, humour, theatrical smoke and graphic simulations to deliver thrills.

Height Restriction: Guests must be at least 54 inches tall (137.2cm)
Not recommended for guests under the age of 13.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a Team Member. Only Spooky is wheelchair accessible.

Aqua Twist

This circular attraction is comprised of nine boats that can seat up to six passengers. Just after boarding and before the ride starts, the floor disappears and is entirely covered with water, allowing each boat to flow and rotate.

Height Restriction: Riders must be at least 36" tall. Guests between 36 and 48 inches (91.4cm and 121.9cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic devices. Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.
Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle

Ride Access: Guests using wheelchair should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit.

Autos Tamponneuses (bumper cars)

Bumper cars are equipped with a safety belt that must be fastened at all times

Height Restriction: Guests must be at least 44 inches (111.8cm)

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride. In addition, riders must possess two (2) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices. Riders must have ability to hold, push and pull on the levers. Passenger must have the ability to brace themselves.

Casts are not permitted.

Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a wheelchair should proceed to the alternate access entrance and present a valid Equal Access Pass to a Team Member.

Condor

In this ride, guests are seated in one of the four gyroscopic gondolas that turn and elevate at a 27-metre height. The guardrail and safety belt must be fastened and tightened at all times.

Height Restriction: Riders must be at least 44" tall. Guests between 44 and 48 inches (111.8cm and 121.9cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic. Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using wheelchair should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit.

Dragon

Small indoor roller coaster. The safety bar must be fastened at all times

Height Restriction: Riders must be at least 44" tall (111.8cm). Guests between 44 and 52 inches (111.8cm and 132.1cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices **OR** two (2) naturally fully formed and functioning arms absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic devices.

Prosthetics are not permitted.

Casts may not restrict the rider from bending the elbow and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Strobe lights are present at this ride.

Ride Access: Guests using a wheelchair should enter through the exit ramp and present a valid Equal Access Pass to a team member to receive a wait time.

Disco Ronde

This circular ride consists of cars that are interweaving and turning to the beat of disco music.

Height Restriction: Guests must be at least 44 inches (111.8cm) Guests between 44 and 48 inches (111.8cm and 121.9cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a team member.

Pitoune

In this water splash ride, guests take place aboard a log.

Height Restriction: Guest must be at least 36 inches tall (91.4cm) Guests between 36 and 48 inches (91.4cm and 121.9cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic devices. Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Guests must be able to walk without assistance in case of evacuation.

Ride Access: Guests using a wheelchair should enter through the exit and will need to walk up a staircase to present a valid Equal Access Pass to a team member to receive a wait time.

Splash

Guests are sure to get wet and splashed aboard this boat that can accommodate 20 persons.

Height Restriction: Guests must be at least 44 inches tall (111.8cm)

Physical Requirements Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic devices. Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Guest must be able to step up into ride unit.

Ride Access: Guests using a wheelchair should enter through the alternate entrance located next to the Flash pass entrance and present a valid Equal Access Pass to a team member to receive a wait time.

Toboggan Nordique

The Toboggan Nordique's individual four passenger cars will go through a course full of hairpin turns and moderate drops.

Height Restriction: Guests must be at least 44 inches (111.8cm)
Guests between 44 and 48 inches (111.8cm and 121.9cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess one (1) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Guest must be able to navigate down a ladder in the event of a ride evacuation.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a team member to receive a wait time.

Tour de ville

Classic family ride that takes passengers up in the sky aboard flying chairs.

Height Restriction: Guests must be at least 48 inches (121.9cm)

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) naturally fully formed and functioning arm extremity absent of prosthetic devices and one (1) naturally fully formed and functioning leg extremity absent of prosthetic devices.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a team member.

Vol Ultime

Circular ride that brings riders 150 feet up in the air.

Height Restriction: Minimum height: 44 inches (111.8cm)
Guests between 44 and 48 inches (111.8cm and 121.9cm)

Physical Requirements: : Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess two (2) legs that include the knee, one (1) naturally fully formed and functioning arm absent of prosthetic devices, and one (1) arm that extends at the minimum to the elbow.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a wheelchair should enter through the exit and present a valid Equal Access Pass to a team member to receive a wait time.

MAXIMUM THRILL RIDES:

Bateau Pirate

Riders are seated in this boat that rocks from side to side in a pendulum motion.

Height Restriction: Guests must be at least 48 inches (121.9cm) tall to ride. Guests between 48 and 52 inches (121.9cm and 132.1cm) must be accompanied

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess one (1) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a wheelchair should enter through the flash pass entrance and present a valid Equal Access Pass to a team member to receive a wait time.

Boomerang

In this roller coaster riders are propelled at 75 km/hr and live a big thrill when the roller coaster goes backwards like a boomerang.

Height Restriction: Guests must be at least 48 inches (121.9cm)
Guests between 48 and 52 inches (121.9cm and 132.1cm) must be accompanied.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully

formed and functioning arm absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic devices. Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a wheelchair should enter through the Ride exit ramp and present a valid Equal Access Pass to a team member to receive a wait time.

Catapult

A fee is required for Catapulte.

Thrill-seekers will be reaching a height of 173 feet, and then free fall.

Height Restriction: Guests must be at least 44 inches (111.8cm) tall to ride.

Physical Requirements: Riders must possess at least two (2) naturally fully formed and functioning arms absent of prosthetic devices and one (1) naturally fully formed and functioning leg absent of prosthetic devices able to be restrained by the flight suit.

Riders must be willing and have the ability to grasp and hold onto the landing loop with both hands during the landing process. Those using a wheelchair must transfer from the wheelchair onto the ride.

Casts may not restrict the rider from bending the elbow or knee, and may not restrict the restraints in any way.

Ride Access: Guests using a wheelchair should enter through the standard entrance.

Cobra

Roller coaster with tight corners in which passengers stand up.

Height Restriction: Guests must be at least 54 inches (137.2cm)
Maximum height: 77 inches (1.96 m)

Physical Requirements: Each rider must maintain in an upright standing position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess one (1) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices.
